Quick reference guide

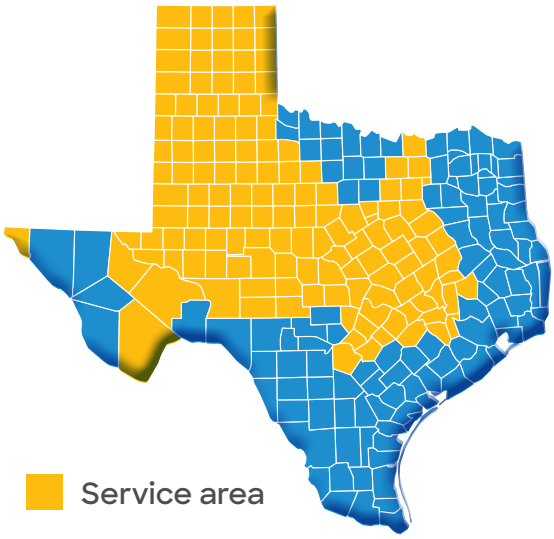

Making healthcare simpler, every step of the way.

Baylor Scott & White Health Plan

Thank you for being a member.

At Baylor Scott & White Health Plan, we make your healthcare as easy as possible, so you have the freedom to explore, engage and focus on what matters most. Whether it's putting the information you need at your fingertips or connecting you to convenient, quality care–we're here for you in whatever way you need us.

Understand your network

BSWH EPO plan

The Tier 1 BSW Premier Network is the network available for your plan, except for urgent or emergency care or when authorization has been provided. Using participating providers helps you receive care at the lowest cost available under your plan.

Find care in your network

Visit **BSWHealthPlan.com/BSWH** and select your plan option under **Find a doctor**.

Your ID card is important

Remember to carry your member ID card with you at all times. Present it when you receive care, so your provider understands your coverage.

You may also view your ID card online through **MyBSWHealth.com** or in the MyBSWHealth app.

Get to know your plan benefits

Understanding your coverage before you need care can help you make informed decisions and avoid surprises later. Visit **BSWHealthPlan.com/BSWH** for plan materials, provider tools, forms and additional member resources.

Care management

Managing a health condition can be challenging, but you don't have to do it alone. Care management connects you with a dedicated team that can help you navigate your care, coordinate support and stay on track with your health goals.
